## ABOUT

I am a problem solver who loves talking to new people. I also happen to cycle a lot, read technical manuals, design & build things, listen to music, love mathematics, and be interested in human behaviour.

I like perfection, everywhere. Being highly competitive, I have the energy and enthusiasm required to cycle to any destination.

**I am keen to do research and help develop humanity as a whole, and will keep searching for opportunities to do the same.**

## COMPETENCIES

C++, Python, Java, PHP, AngularJS, CSS, JavaScript, NodeJs, Wolfram Language, Team management, Team motivation  
**Also used:** Electron, TensorFlow, NumPy, SQL

## INTERESTS

Human Computer Interactions, algorithms, mixed senses disability aids
